K-LINE'S POINT OF DIFFERENCE

K-Line Fencing Group specialises in providing comprehensive fencing solutions for industrial properties in Western Australia.

Backed with over 100 years' combined experience in security fencing, K-Line Fencing Group deliver an unparalleled level of protection for industrial properties.

Our team is dedicated to delivering customer service excellence, ensuring you enjoy a hassle-free experience throughout your fencing project.

Quality commercial security fencing products combined with precise installation assures our fencing solutions withstand the test of time.

Our Vision

"To keep our customers safe and secure by delivering reliable high-quality and value driven fencing solutions combined with project management excellence"

GARRISON SECURITY FENCING

Garrison Security Fencing is ideal for the protection of industrial properties by deterring intruders to prevent property damage and theft.

Designed and manufactured for maximum strength with face-welded steel panels and Anti-Vandal fixings to stop vandals removing fence panels.

Our premium Anti-Corrosion Primer Coating is applied prior to powder coating, ensuring product longevity.

Matching sliding and swinging gates are manufactured to suite your access requirements with optional automated operation.

Garrison Security Fencing is available in a colour of your choice.

Steel construction that intruders can't cut through with pliers.

Protects against intruders from having visual access to your property.

SECURITY SCREEN FENCING

Security Screen Fencing delivers both a heavy-duty security barrier around industrial properties along with total screening.

By providing a dual-layer of protection security screen fencing prevents criminals from mechanically cutting through the fencing or removing fence panels.

Barbed and razor wire available, deters intruders from climbing over fencing.

CHAINWIRE FENCING

Chainwire Fencing is a versatile medium-duty fencing system to prevent property invasion and create internal warehouse compounds.

Available in Galvanised and Black PVC coated Chainwire.

Optional top and bottom rails prevent the Chainwire being crushed across the top or pulled up along the base.

Customised Gates are manufactured to suit your access requirements.

Optional barbed wire can be installed for additional security.

COLOURBOND FENCING

Colourbond Fencing is a great solution to screen off areas on industrial properties.

A wide range of colours are available to blend your fencing colour in with the surroundings on your property.

Colourbond Fencing is ideal for screening off workshop areas to maintain excellent property presentation and to screen off outdoor storage areas preventing valuable stock from being visible on industrial properties.

Available in a colour of your choice.

TUBULAR STEEL FENCING

Tubular Steel Fencing is ideal for around car park areas and to protect pedestrian walkways from vehicle access.

Designed and manufactured from fully galvanised steel and protected with K-Line's premium Anti-Corrosion Primer coating to withstand the test of time.

Flat-Top tubular steel panels are designed without pointed uprights to create a safe low-height barrier beside walkways.

PROJECT MANAGEMENT & INSTALLATION

PROJECT MANAGEMENT EXCELLENCE

Our team of highly qualified and experienced project managers ensure you experience a streamlined and hassle-free installation process.

DEDICATED PROJECT MANAGER

Each commercial fencing project is assigned a dedicated project manager to keep you informed and save your valuable time with a single point of contact.

YOUR SAFETY

The safety of your personnel is our priority, our team ensures all works are carried out safely to protect your staff from being exposed to hazards.

EXPERIENCED AND QUALIFIED INSTALLERS

All commercial fencing projects are installed by highly experienced and qualified installers, ensuring our high standards of workmanship are maintained.

PROJECT COMPLETION - QUALITY INSPECTION

On completion, fencing installations are inspected to confirm our high standards of workmanship are maintained with no damage to your property.

TESTIMONIALS

We want to thank all your staff for the prompt service and excellent workmanship from start to finish.

I have no hesitation in recommending your company.

Andy | Nathan's Cabinets

Thank you very much, you will be considered for all future fencing as remarkably I did not encounter any problems at all with your service and installation.

The fence looks great as well as the pedestrian gates... impressive!

Stephen | Satterley

I'd like to thank your crew for doing a professional job of installing our fence, fast, neat and professional.

Peter | Sanno Hotel

I would like to thank you guys for a great job. From the quoting stage to completion, K-Line Fencing Group was a great company to deal with.
